Religiosity Survey for Foundations

Participation in this survey is voluntary. Its purpose is to better understand religion's role among philanthropic foundations. This survey will ask you to indicate the extent to which religion influences your organization's inter- and intra-organizational *operations*, *environment*, and *finances*. The survey consists of four introduction questions and 15 topical questions.

What is the name of your organization?

```
┌─────────────────────────────────────────┐
│                                         │
│                                         │
└─────────────────────────────────────────┘
```

In what city and state is your organization's headquarters located?

```
┌─────────────────────────────────────────┐
│                                         │
│                                         │
└─────────────────────────────────────────┘
```

What position do you hold in the organization?

```
┌─────────────────────────────────────────┐
│                                         │
│                                         │
└─────────────────────────────────────────┘
```

How many years have you worked for this organization?

```
┌─────────────────────────────────────────┐
│                                         │
│                                         │
└─────────────────────────────────────────┘
```
