### Religiosity Survey for Funder Groups

Participation in this survey is voluntary. Its purpose is to better understand religion's role among funder groups. This survey will ask you to indicate the extent to which religion influences your organization's inter- and intra-organizational *operations* and *environment*. The survey consists of four introduction questions and 12 topical questions.

What is the name of your organization?

In what city and state is your organization's headquarters located?

What position do you hold in the organization?

How many years have you worked for this organization?

Please answer the three questions below.

Always

Often
